You will need to decide how you want your image to look at the START and how you want it to look at the END of its time on screen

You can customize the duration of the pan and zoom here, or leave it on automatic.

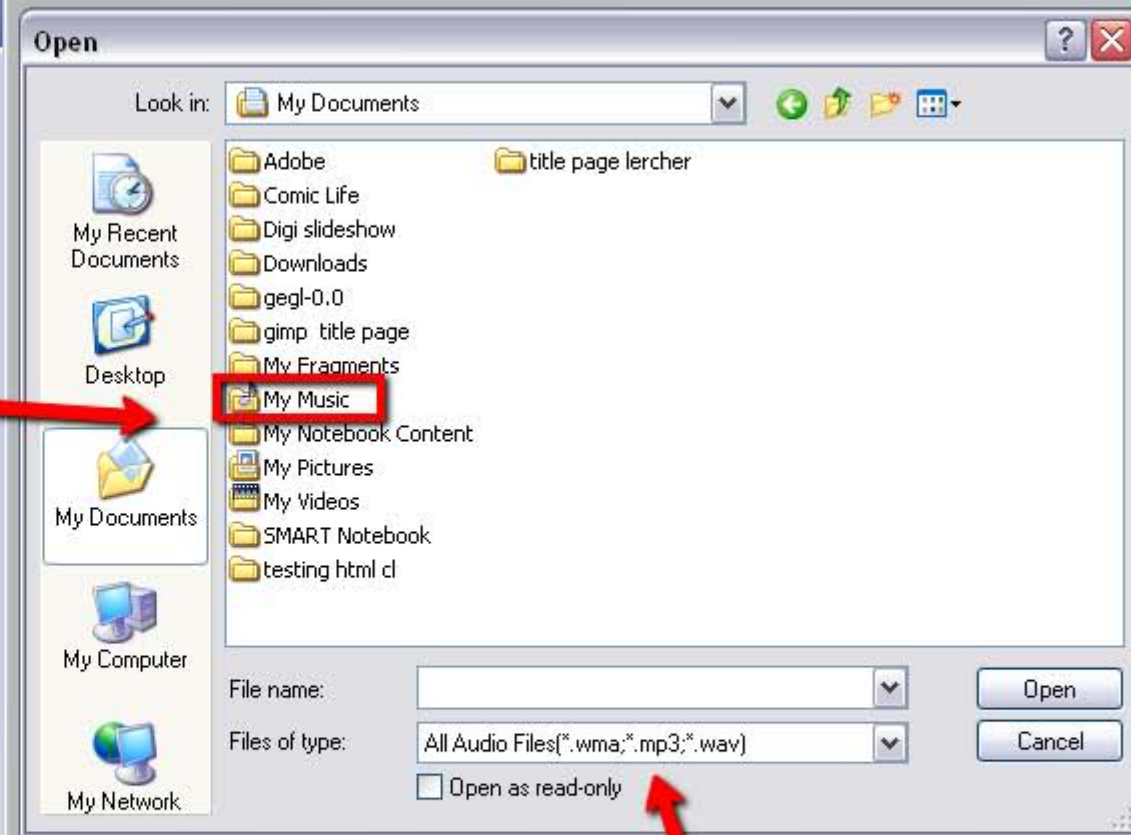

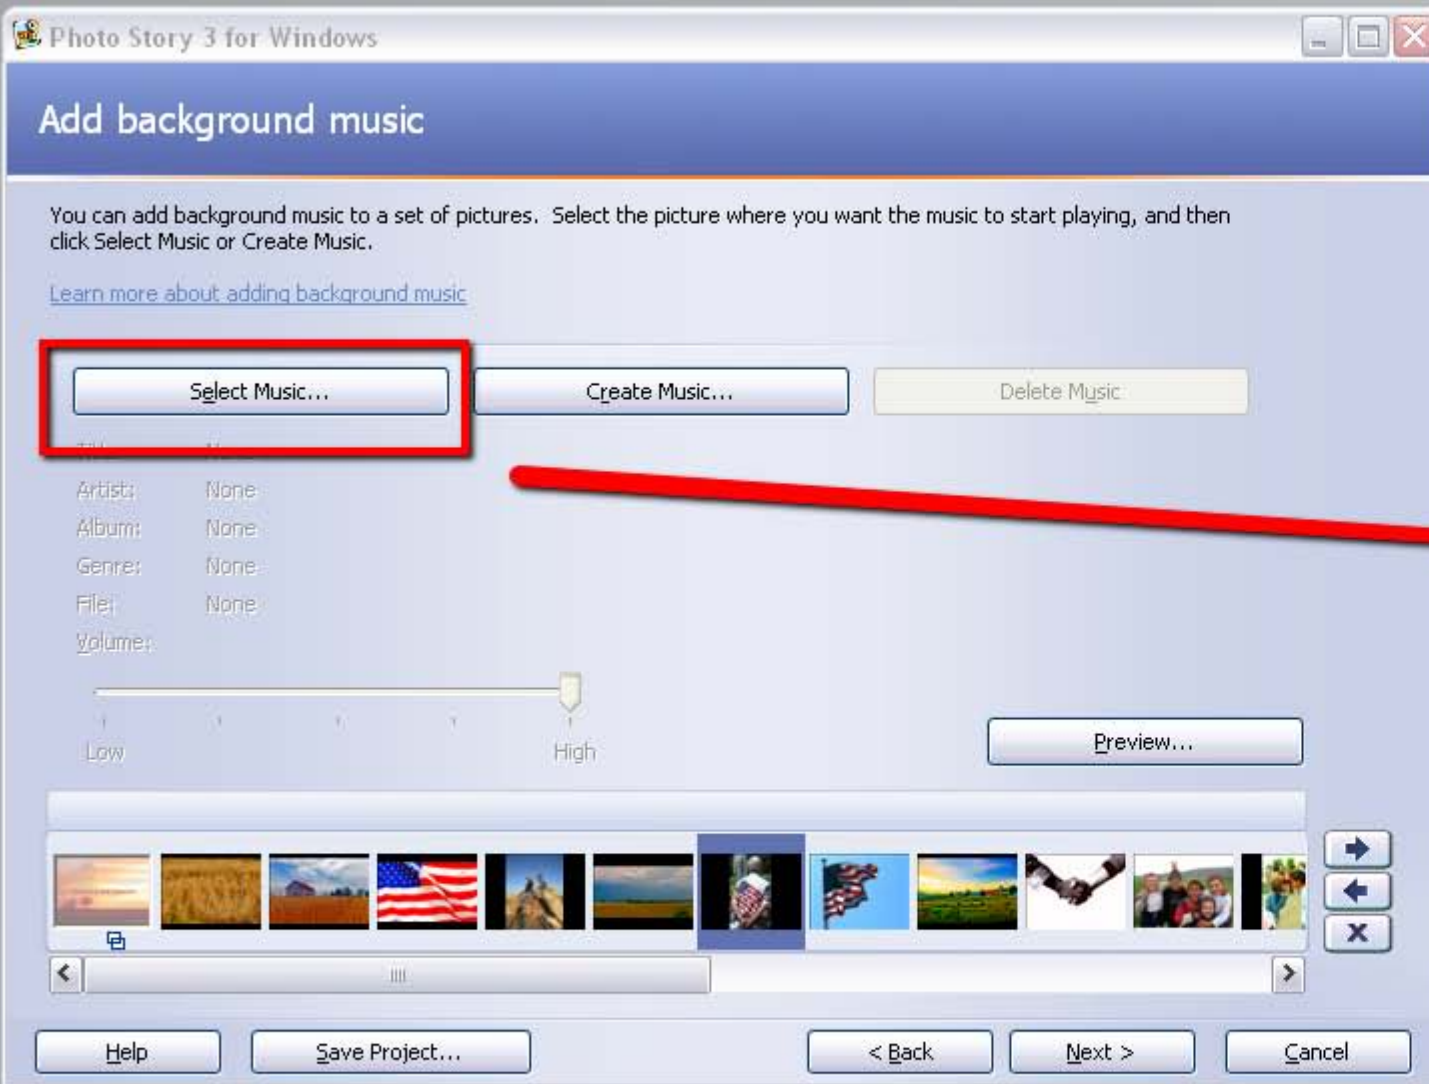

You can see which images have pan and zoom by this little icon.

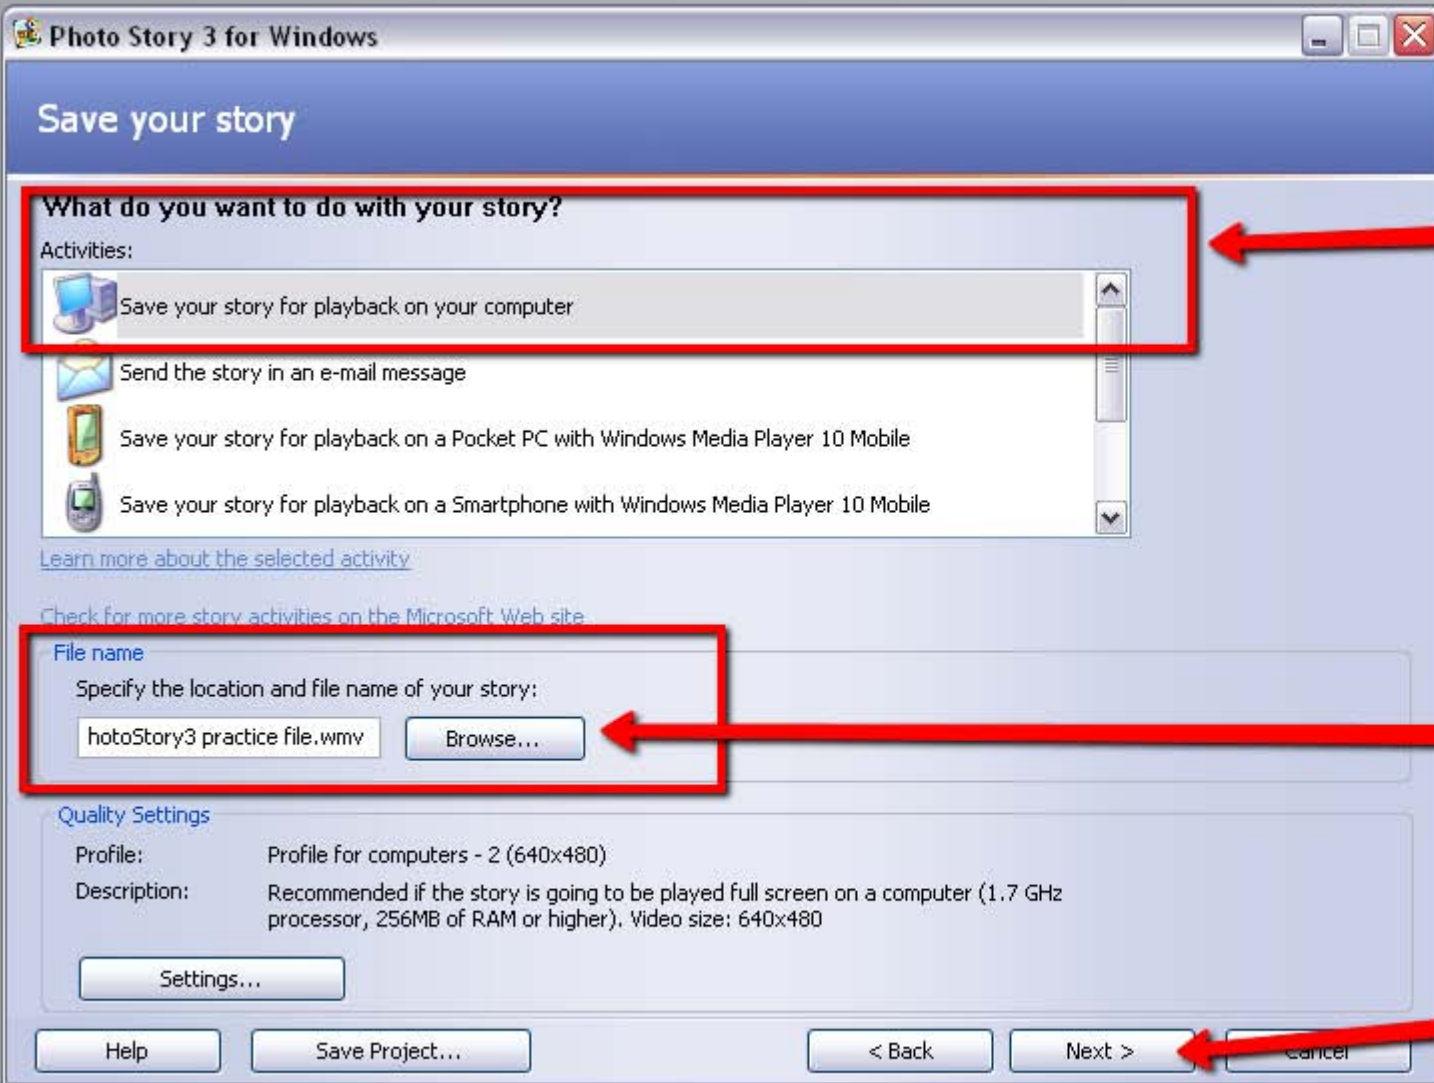

You can use music built into PhotoStory 3. Click on CREATE MUSIC and you can make your selection. You can customize the music by adjusting tempo, mood and intensity and preview before adding it to your movie.

You can also import music from your computer by clicking on SELECT MUSIC and browsing for your mp3 or wav file.

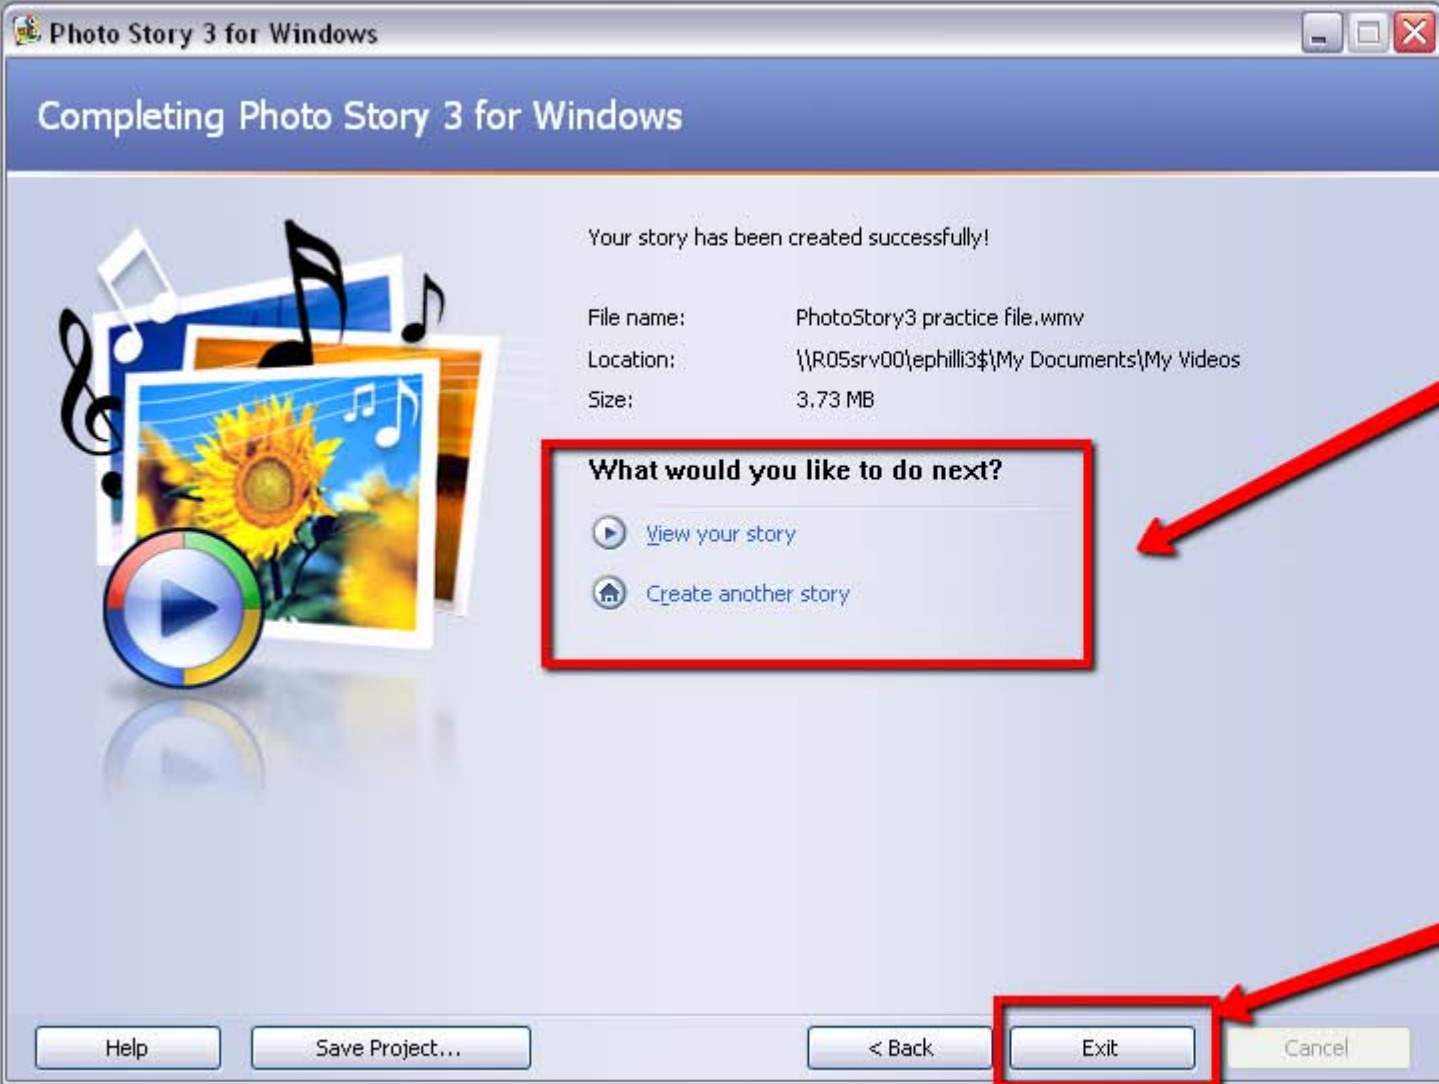

Once selected, your music will appear above your images.

Now you are ready to save your slideshow. Click on the first option "Save your story for playback on your computer."

Remember to select a destination for your movie on your computer.

Then click on NEXT

Lastly, decide if you'd like to create another story or view your finished project.

Then
EXIT
